*The Majority  
Rules.*

IN THE LONG RUN  
**The Majority is Always**

Right.

IN 1899 100,000 PEOPLE IN ALL PARTS OF  
THE WORLD SELECTED THE

**New York Life**

INSURANCE COMPANY + + + +

as the **BEST** Company. No other company in the world came within 30,000 of this figure.

The NEW YORK LIFE increased its Insurance in force during 1899 by \$118,000,000 as against \$81,000,000 of the next largest company.

WILL YOU DISPUTE THE  
**Verdict of the World?**

**WHY**

is the NEW YORK LIFE the best Company?

BECAUSE OF ITS

**Honesty.** It throws open to the public its entire financial position in a manner unknown to other companies. It is a MUTUAL Company honestly conducted for the insured, to whom all profits go.

**Security.** It has \$236,000,000 of Assets, and \$41,000,000 of Surplus Reserved Funds. Its investments are voluntarily restricted to Bonds and 1st Lien Mortgages.

**Dividends.** For eight years its incomparable dividends have not decreased. Diminishing expenses, increasing business and conservative management are the best guarantee of future profits.

THE  
**Accumulation Policy.**

1. Contains a clause as follows:

"This Policy is absolutely free of conditions as to residence, occupation and travel, as to habits of life and as to manner, time and place of death. No permit or extra premium will be required for military or naval service, either in time of peace or in time of war."

2. It is like a U. S. Government bond—Incontestable from date of issue.

3. It allows one month of grace in which to pay the premium, and insures you meanwhile.

4. It allows 5 years in which to re-instate.

5. It embodies the privilege of having the policy payable by instalments at death. For instance: Under a \$10,000 policy, the company will pay \$650 annually for 20 years (\$13,000 in all).

Of, accounting the beneficiary to be 45 years of age at insured, death, the Company would pay \$500 annually for 25 years \$12,500 to the beneficiary or her heirs and, if she survives the 25 years, would continue the payments until her death. If the beneficiary were older than 45 years, at insured's death, the instalments would be larger.
